

Petition to the Legislative Assembly of Ontario on behalf of Autism Families.

Whereas there is a group of 7 families with 9 adult children on the autism spectrum with severe and complex special needs.

Whereas they have been receiving court-ordered funding over 15 years ago through the Ministry of Children and Community Social Services to assist in the support of these young adults with highly specialized, trained staff and programming to keep them safe from harm and enable them to meet their potential.

Whereas the Ministry abruptly discontinued said court-ordered funding in August 2019 without the promised transition plans for these at-risk individuals - or any solutions or mechanisms to meet their needs - thus demonstrating negligence, bad faith and a breach of contract.

We the undersigned petition the Legislative Assembly of Ontario as follows:

To urge the Ontario government to reinstate the funding to the aforementioned 7 families to its pre-August 6, 2019 cut-off level and provide appropriate ongoing funding for the care and support of these at-risk adult children.
